

KILYMO USER MANUAL

1. Introduction

For farmers and agricultural service providers, Kilymo is a smart agricultural platform designed to act as a digital assistant. • Assisting farmers in managing their farm data, crop growth, and tasks is its primary goal.

The platform allows sellers to offer services, upload documentation of their credentials, and reply to reservations directly. It also suggests fertilizers based on crop type and links farmers with trustworthy service providers, such as veterinarians, tractor owners, sprayers, and other agricultural specialists.

All users, including farmers and buyers, can take advantage of a simplified, fruitful farming experience thanks to Kilymo's organized and participatory ecosystem.

2. System Requirements

To access and use Kilymo without issues, users are advised to have the following:

Hardware:

- Smartphone, tablet, laptop, or desktop computer
- At least 2GB RAM and stable CPU for smooth dashboard operation (if on desktop)

Software:

- Any modern browser: Google Chrome (recommended), Mozilla Firefox, Safari, or Microsoft Edge
- Internet connectivity: 3G and above (stable 4G or Wi-Fi recommended)

3. Understanding User Roles

Kilymo supports three distinct user roles:

A. Farmer

- Individuals or farm owners who register to manage their farming activities.
- Can input farm data, add crops, track growth, receive fertilizer recommendations, and hire agricultural services from the marketplace.

B. Seller / Service Provider

- Professionals or businesses that offer agricultural services such as:
 - Veterinary assistance
 - Tractor or plough rentals
 - Spraying or harvesting services
- Sellers must upload verification documents for approval before their services are visible to farmers.

C. Admin (Internal Role)

- Admins verify seller identities and documentation
- Handle quality control, service approvals, and platform moderation

4. How to Get Started

4.1 Farmer Registration & Login

1. Visit the Kilymo platform homepage.

FIGURE1. Kilymo Platform homepage

2. Click on the “Register as Farmer” button.

A screenshot of the Kilymo 'Create Account' registration page. The browser address bar shows '127.0.0.1:5504/auth/signup.html'. The page has a white background with a green KILYMO logo at the top. Below the logo is the heading 'Create Account' and the subtext 'Join KILYMO to start your farming journey'. Under 'Select Account Type', there are two buttons: 'Farmer' (with a tractor icon) and 'Seller' (with a storefront icon). Below these are input fields for 'Full Name', 'Email Address', 'Password', and 'Confirm Password'. The 'Password' field has a note: 'Must be at least 8 characters with letters and numbers'. At the bottom is a 'Phone Number' input field.

Registering page

3. Fill in the required fields:
 - Full Name
 - Email Address
 - Phone Number
 - Password
 - Confirm Password
4. After submitting the form, you'll receive a confirmation message.
5. Log in using your credentials to access the dashboard.

Farmers dashboard

6. You will be prompted to fill in your **farm information**, including:
 - Farm location
 - Size of land
 - Crops grown
 - Farming type (e.g., organic, mixed, conventional)

4.2 Seller Registration & Login

1. Click on the “Register as Seller” button.

Must be at least 8 characters with letters and numbers

Phone Number

Signup page

2. Provide personal and service-related details:
 - Full Name or Business Name
 - Phone Number
 - Email
 - Services you offer
 - Region or county of operation

Seller dashboard

3. Upload necessary documents (e.g., certifications, licenses)
4. Submit the registration form.
5. Wait for admin approval. Status will be updated via the **notification system**.
6. Once approved, you can access the seller dashboard and begin offering services.

5. Using the Farmer Dashboard

After logging in as a farmer, the **dashboard** becomes your main workspace.

5.1 Adding Crops

1. Click on the **“My Crops”** section.

Add crop section

2. Select “Add New Crop.”
3. Enter:
 - Crop name (e.g., maize, beans, tomatoes)
 - Planting date
 - Expected harvest date
 - Crop variety

- Soil condition and climate (optional)

The screenshot shows a web browser window with the URL `127.0.0.1:5504/farmer-dashboard.html`. A modal form titled "Add New Crop" is displayed over a blurred background of the dashboard. The form contains the following fields:

- Crop Type:** A dropdown menu with the text "Select Crop Type".
- Seed Variety:** A dropdown menu with the text "Select Crop Type First".
- Plot Size (acres):** A text input field with a small icon on the right.
- Planting Date:** A date picker field showing "dd / mm / yyyy".
- Expected Yield (kg):** A text input field with a small icon on the right.
- Add Crop:** A green button at the bottom of the form.

Add crops form

4. Submit to save crop details.

The screenshot shows the KILYMO dashboard with the URL `127.0.0.1:5504/farmer-dashboard.html`. The dashboard includes a sidebar with navigation options: "Overview", "My Crops", "Tasks", "Calendar", "Marketplace", and "Services". The main content area displays the following information:

- Weather:** 13°C, Eldoret, scattered clouds, 89% humidity, 1 m/s wind.
- Crop Details:** Maize - H614, 12 acres.
- Growth Progress:** A progress bar showing 100% completion.
- Planted:** Nov 30, 2024.
- Days to Harvest:** Ready.
- Expected Yield:** 43200kg (range 28800-60480kg).
- Harvest Date:** 30 / 03 / 2025.
- Recommended Fertilizer:** A section for fertilizer recommendations.

Uploaded crops section

5.2 Tracking Crop Progress

1. Return to "My Crops."

2. Choose a crop to view its progress.
3. Add updates on:
 - Health condition (e.g., healthy, with pests)
 - Actions taken (e.g., sprayed pesticide)
 - Photos (optional)
4. Progress charts and logs will update automatically for review.

Progress section for the crops

5.3 Getting Recommended Fertilizers

1. Navigate to **“Fertilizer Recommendations.”**
2. Choose your crop.
3. The system uses your input (soil type, crop type, and region) to provide:
 - Best-suited fertilizer brands/types
 - Application time and quantity
 - Estimated cost
4. Farmers can download or print the recommendation for reference.

5.4 Managing Farm Tasks

1. Go to the **“Tasks”** section.

2. Create daily or weekly tasks (e.g., weeding, spraying).
3. Add due dates and priority.
4. Tick completed tasks to track overall productivity.

Tasks Section

6. Exploring the Marketplace

The **Marketplace** connects farmers to service providers in their region.

6.1 Booking a Service

1. Open the “**Marketplace**” tab.
2. Filter by:
 - Service type (e.g., veterinary, tractor hire)
 - Location
 - Availability
3. Click on a service to view full details including:
 - Description
 - Pricing
 - Provider’s rating
 - Documents (if available)
4. Click “**Book Service**” and choose your preferred date and time.

5. Submit the request and wait for the provider to respond.

Marketplace page

6.2 Viewing Booking Status

1. Go to the “**My Bookings**” page.
2. You’ll see status updates such as:
 - **Pending** – awaiting seller approval
 - **Approved** – confirmed by seller
 - **Rejected** – declined by seller (reason provided)
 - **Completed** – after service is delivered
3. You’ll also receive **notification alerts** for each status change.

7. Using the Seller Dashboard

Once your account is approved, you’ll access your dashboard with tools to manage services and bookings.

7.1 Adding Services

1. Navigate to **“My Services.”**
2. Click **“Add New Service.”**
3. Fill in:
 - Service Name (e.g., Tractor Hire)
 - Description
 - Price per job/hour
 - Regions covered
 - Availability schedule
4. Submit the service for **admin review**.

Add new service section

7.2 Document Upload & Verification

1. Upload legal or professional documents such as:
 - ID
 - Business permit
 - Veterinary license
2. Documents must be clear and valid.

- Admin will review and notify you of approval or rejection through the notification system.

Document upload section

7.3 Managing Bookings

- View new booking requests under “**Bookings**” tab.
- Approve or reject based on availability.
- Once a job is completed, mark it as “Completed” to close the request.
- Communication with clients (farmers) may be possible via an in-platform message or comment.

Sellers services section

8. Notifications System

The notification center keeps users informed in real-time.

What You'll Receive Notifications For:

- **Farmers:**
 - Booking status updates
 - Fertilizer tips
 - Task reminders (optional)
- **Sellers:**
 - Service approval/rejection
 - New booking requests
 - Booking status updates

Click the **bell icon** in your dashboard to read the latest alerts.

Notification system section

10. Troubleshooting Guide

Issue	Cause	Solution
Page not loading	Poor internet or unsupported browser	Use Chrome and check your connection
Can't log in	Wrong email or password	Reset password or recheck login details
Booking button not working	Service may be under review	Try again later or choose a different provider
Notifications not updating	Cache or internet issues	Refresh the page and check connection

11. Contact & Support
